

Association of European Manufacturers of
WATER & THERMAL ENERGY METERS

Aqua

is the association of European manufacturers of water and thermal energy meters.

Water meters for domestic and for commercial & industrial uses.

Thermal energy meters for heat and/or cooling installations.

All members manufacture smart versions of water and/or thermal energy meters

Established as a formal group since 1960

AQUA helps to ensure that products are of the highest quality and fully conform to present and future requirements of utilities and end consumers

AQUA members are operating in all EU countries

Our Mission

To support European and international institutions with our experts in water and thermal energy metering.

Our Vision

To become the leading European association in the preservation of water and energy resources with smart metering solutions that fulfil the needs of industry and consumers.

Objectives

Promoting common European Standards in terms of:

- Quality
- M.I.D
- Communication
- Hygiene
- Sustainability

1

Developing & pushing technologies that meet the needs of the industry and end customers

2

Working with other associations and groups to ensure compatibility with future smart metering solutions

3

Providing support to industry and end customers in the field of water and thermal energy metering

4

Aqua Members

Partnering Associations

Organization & Structure

Residing President
Per Trøjbo, Kamstrup

monthly
meeting

General Secretary
& Treasurer
Maïka Haddad

General Assembly – convenes once a year // Executive Committee – convenes twice a year

All Aqua members are represented in the General Assembly & the Executive Committee

5 Working Groups (WG) consist of engineers & experts from among the 15 members

WG Water

Residing Convenor:
Dominique Doucet, Itron

WG Thermal Energy

Residing Convenor:
Ulrich Eff, Diehl

WG Communication

Residing Convenor:
Markus Helfenstein, GWF

WG Sustainability

Residing Convenor:
Hanspeter Hadorn, Sontex

WG Marketing

Residing Convenor:
Arianna Arizzi, Maddalena

Working groups - topics

Water 	Thermal Energy 
ISO 4064 Water meters for cold potable water & hot water	EN1434-6:2022 published from CEN (Heat meters - requirements, test methods and technical editing)
EDW (European Drinking Water) Compatiblity of material with drinking water	Implementation of EED for Thermal Energy
	MID fit for purpose
	UKCA Marking

Communication 	Sustainability 
RED - Radio Equipment Directive	RoHS
Fair Standards (SEP licensing under FRAND terms)	REACH
GDPR	WEEE
NB-IoT	Batteries
WIZE	BPA
EN13757-3/4 compliance & cyber security	Digital Transformation
Marketing 	ESPR
Corporate Identity	Lead metal
Website	SCIP data base
LinkedIn	Carbon footprint calculation
Content Strategy
